

# Vote for a new airport elsewhere

London needs a major hub airport.

- Heathrow is the wrong location.
- Gatwick cannot take over from Heathrow as all the other candidates are saying.

The only solution is to build a new 4 runway airport in the Thames Estuary (also known as Boris Island) to provide air capacity for generations to come. We can pay for this by cancelling the HS2 project.

**DOMINIC**  
**STOCKFORD**

There is only one candidate  
in this by-election who can  
solve the Heathrow problem.  
That is Dominick Stockford  
of the Christian Peoples  
Alliance and Christian Party.

## Vote for a new airport elsewhere

WHY? Because Heathrow is a hub airport, now the second largest in the world having just been overtaken by Abu Dhabi. That means large numbers of passengers that use it fly in and fly out to other destinations.

London needs a major hub airport Heathrow is the wrong location. Gatwick cannot take over from Heathrow as all the other candidates are saying. The only solution is to build a new 4 runway airport in the Thames Estuary (also known as Boris Island) to provide air capacity for generations to come. We can pay for this by cancelling the HS2 project. Both are about the same price. One gets you to Birmingham 20mins quicker and will generate very little wealth. The other allows businessmen to fly into the UK much more easily and quickly and it is anticipated can generate over £100bn extra.

A similar very successful airport has been built in Hong Kong. One will harm the environment greatly when it is built. The other will have minimum impact and will ease the burden on people living round Heathrow enormously.

By voting for the Christian option you will elect an MP with a mandate to solve the Heathrow problem. No other candidate will have this mandate.

Labour have said we should put up the prices of flights to get fewer people to fly. They don't have a solution neither does Zac Goldsmith or the Lib Dems.

Our core values are the importance of marriage, the sanctity of life and protecting persecuted Christians which no other party cares about and also care for the poor which some other parties say they care about but do little.

We deserve your support.
